

# Iana Turovski

UI Developer | React & TypeScript

**Current Location:** Georgia, Tbilisi

**Langs:** *RU* (native), *UA* (advanced), *EN* (B1/B2)

**email:** tuvora.97@gmail.com

**telegram:** @Tuvora

**tel:** +995 591 880 481

## About Me:

I love using React and TypeScript components to create clean and accessible interfaces. When I'm not coding, I'm immersed in Asian culture, all the sci-fi 2/3D and fantasy nature. A couple years ago I was on the women's American football team.

## Skills:

### **React, TypeScript & Advanced Component Development**

High-performance, reusable components with modern patterns.

### **Performance Optimization & Cross-Browser Compatibility**

High performance, cache, and compatibility improvements.

### **Version Control (Git) & CI/CD Integration**

Efficient workflows with Git and automated deployments.

### **Workflow Automation (Prettier, ESLint, Stylelint)**

Automated formatting and linting with Prettier, ESLint, Stylelint.

### **HTML5, SCSS & Responsive/Adaptive Design**

Modular, adaptive layouts with SCSS flexibility.

### **Storybook Setup & Component Documentation**

Custom setups, documentation, Show Code, and component demos.

### **Accessibility (a11y) & Web Standards Compliance**

Inclusive designs following WCAG and modern web standards.

### **Component Testing & Validation**

Ensuring stability and accuracy by creating validation and filter functions.

## Experience:

### **AIRSLATE**

### **UI React Component Developer**

Jan. 2021/Oct. 2024

Contributed to major system migrations from Pug to React, establishing a new UI Kit with reusable, high-performance components. Automated workflows (prop filtering, Figma icon exports, ESLint integration) to enhance code quality and team efficiency. Configured Storybook for seamless component documentation and cross-team adoption.

#### **Key Achievements:**

- Played a pivotal role in two major transitions: Pug to React and then to a dynamic UI Kit.
- Automated processes to streamline development, focusing on icon export and ESLint integration.
- Facilitated cross-team collaboration to improve the UI Kit's usability across departments.

#### **Key Skills:**

- React.js
- TypeScript
- WCAG
- ESLint
- Storybook
- Figma
- CI/CD
- Responsive Design
- Workflow Automation
- Team Work

### **WEBENERGY-IT**

### **UI Developer**

Feb. 2020/Dec. 2020

Developed adaptive and responsive interfaces with SCSS, focusing on modularity and flexibility. Designed layouts for CMS, organized content and product catalogs, and optimized sites for SEO and performance.

#### **Key Achievements:**

- Implemented new modules for enhanced CMS functionality.
- Improved site performance and user experience, leading to higher client satisfaction.

#### **Key Skills:**

- HTML5
- SCSS
- Responsive Design
- CMS
- Hosting Setup
- UX Improvement

### **FREELANCE**

### **Mark Up Developer**

2019/2020

Created e-commerce stores and landing pages with a focus on modern design standards. Redesigned sites, optimized for performance, and provided CMS-based solutions for layout creation and content management. Established client communications to ensure project alignment.

#### **Key Achievements:**

- Implemented new modules for enhanced CMS functionality.
- Improved site performance and user experience, leading to higher client satisfaction.

#### **Key Skills:**

- HTML5
- CSS3
- JavaScript
- CMS
- Customer Communication
- Performance Optimization

## Courses:

### **Html Academy, 2020**

*Professional Html and CSS, Level 2*

### **Brunoyam, 2020**

*Mark up Html and CSS*
